## PROFILE

- 12+ years of experience in full-stack web development with expertise in **JavaScript, Node.js, React, Vue.js, Angular, GraphQL, REST APIs**, and databases (**MySQL, PostgreSQL, MongoDB**).
- Proficient in **Elasticsearch, Docker & Kubernetes deployments, CI/CD pipelines, and cloud platforms (Azure DevOps, AWS, GCP)**.
- Strong background in automated testing (Cypress, Nightwatch, Jest, Mocha, Chai, Postman, JMeter).
- Experienced in **design patterns, scalable architectures, and server administration** with a focus on quality and timely delivery.
- Excellent **problem-solving, leadership, and communication skills** with proven ability to translate requirements into effective solutions.

## EMPLOYMENT HISTORY

### Software Development Engineer II at LivePerson Inc., Pune June 2025 — Present

As a Lead Engineer at LivePerson Inc., I am responsible for monitoring SLA dashboards and service health to ensure system stability, while also reviewing and maintaining the Jira board to manage team priorities effectively. My role involves responding to requests for assistance, planning and reviewing releases, and contributing to coding tasks using Angular, Vue.js, and Nest.js. In addition, I manage server maintenance and oversee deployments, including configuring and orchestrating Kubernetes workloads in GCP to support scalable and reliable application delivery.

### Technical Lead at Capita India Pvt Ltd June 2019 — July 2025

Lead a team of developers and oversee technical projects at Capita India Pvt Ltd. Responsible for managing the development and implementation of software solutions. Collaborate with stakeholders to gather requirements and ensure timely delivery of projects. Utilize JavaScript, Git, SQL, and DevOps tools to optimize software development processes. Provide technical guidance and mentorship to team members. Continuously improve software development practices and stay updated with industry trends.

### Senior Software Developer at Ingram Micro SSC Pvt Ltd September 2018 — June 2019

Contributed to the development of software solutions at Ingram Micro SSC Pvt Ltd as a Senior Software Developer. Collaborated with cross-functional teams to deliver high-quality software products. Utilized JavaScript, Git, SQL, and DevOps tools to develop and maintain software applications. Participated in the full software development lifecycle from requirements gathering to deployment. Worked on optimizing software performance and ensuring adherence to coding standards. Mentored junior developers and provided technical assistance to team members.

### Senior Software Developer at NeoSoft Technologies July 2016 — September 2018

Worked as a Senior Software Developer at NeoSoft Technologies. Developed and maintained software applications using JavaScript, Git, SQL, and DevOps tools. Collaborated with cross-functional teams to gather requirements and deliver high-quality software solutions. Participated in code reviews and provided technical guidance to junior developers. Contributed to optimizing software performance and

| ensuring adherence to coding standards. Stayed updated with the latest software development trends and technologies.
